FLOORING PROBLEMS ???

NICFI Can Help!

The National Institute of Certified Floorcovering Inspectors (NICFI) is a non-profit association of independent floor covering inspectors. NICFI members are expert flooring failure analysts and expert witnesses in flooring problems and failures.

NICFI members are experienced in the inspection and failure analysis of woven carpet, broadloom carpet, resilient tile, rubber tile, cork tile, ceramic tile, resilient sheet vinyl, vinyl composition tile, hardwood, laminate, solid vinyl and specialty flooring materials.

Check individual inspector's listing for areas of expertise. The NICFI is the only Non-Profit Association in the Flooring Industry with membership comprised solely of Certified Floor Covering Inspectors.

NOTICE

The inspectors listed in this directory operate as independent agents. They are listed together here solely as a service to clients, potential clients and other members of the association. Resumes or curricula vitae are available to prospective clients directly from each inspector listed.

Each abstract in this directory has been prepared solely by or under the guidance of the individual described, and only that individual can attest to the accuracy or completeness of the data provided. The listings and the index, are provided as a matter of service only.

Although the NICFI has assembled this material, it cannot...and expressly does not...assure either its accuracy or its completeness, nor does the NICFI assume any liability in connection with its assemblage, or a consultant's performance of services.

Each user should examine the facts and law of their particular jurisdiction to determine whether a particular consultant's area of expertise and knowledge satisfies the user's needs.
